STAFF
RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the *Scaleybank Transit Station Area Plan* recommendation for residential uses up to 12 dwelling units per acre.

Rationale for Recommendation

1. The majority of the site is within ½ mile walk of the Scaleybank Station on the LYNX Blue Line.
2. The project will allow for infill that will provide transit supportive uses within close proximity to a station area and TOD zoning designations.

3. The project provides architectural and design standards that commit to building materials, building orientation, and the pedestrian environment.
4. The development will improve the streetscape treatment along East Cama Street and South Tryon Street.

The approval of this petition will revise the adopted future land use as specified by the *Scaleybark Transit Station Area Plan*, from current recommended residential uses up to 12 dwelling units per acre to new recommended office/retail/residential over 17 units per acre for the site.

As a part of this development, an 8-foot planting strip and 8-foot sidewalk will be constructed along the site's frontage of Cama Street and S. Tryon St., in accordance with the City's ordinances and WALKS policy. All CDOT comments have been addressed.
- **Active Projects:**
 - There are no active projects in the immediate area.

- **Charlotte Department of Housing and Neighborhood Services:** No comments submitted.
- **Charlotte Department of Solid Waste Services:** See advisory comments at www.rezoning.org
- **Charlotte Fire Department:** See advisory comments at www.rezoning.org
- **Charlotte-Mecklenburg Schools:** The development allowed under the existing zoning could generate 3 students, while the development allowed under the proposed zoning may produce 9 students. Therefore, the net increase in the number of students generated from existing zoning to proposed zoning is 6.
 - The proposed development is projected to increase the school utilization over existing conditions (without mobile classroom units) as follows:
 - Dilworth (Sedgefield Campus K-2) remains at 66%
 - Dilworth (Latta Campus 3-5) from 64% to 65%
 - Sedgefield Middle from 73% to 74%
 - Myers Park High remains at 125%
 - See advisory comments at www.rezoning.org

- **Charlotte Water:** The proposed rezoning is located in an area that Charlotte Water has determined to have limited sanitary sewer system capacity. Sanitary sewer service will be dependent on the completion of a public infrastructure project—Charlotte Water’s Scaleybark Project. This project was identified to support current and future customers, and any proposed sanitary sewer flow shall be coordinated to discharge after completion of said project.

Charlotte Water has accessible water system infrastructure for the rezoning boundary via an existing 6-inch water distribution main located along East Cama Street and an 8-inch along South Tryon Street. See advisory comments at www.rezoning.org

- **Engineering and Property Management:**
 - **Arborist:** No comments submitted.
 - **Erosion Control:** No outstanding issues.
